I am going to read you some interesting information about trees. Listen carefully.

**Trees are all around us. Trees grow.
Trees have different parts. Each part has a special job.**

iStockphoto/subject to copyright DNY59

**The leaves make food for the tree.
The leaves also give us shade.**

iStockphoto/subject to copyright ©studiocasper

The roots take in water for the tree. The roots hold the tree in the ground.

iStockphoto/subject to copyright ©enterphoto

**Trees have stems called trunks.
Trunks can be thin or fat. The
trunk holds the tree up.**

**Trees are the largest
plants on Earth!**
