Foreword

This publication represents the combined efforts of staff members at the Utah State Board of Education (USBE). It is intended to be a single-source review of education-related legislation from the 2020 Legislative Session. This publication is written for state school board members, local education agency (LEA) board members, superintendents, charter school administrators, and school business administrators. It may also be useful to other public education-related organizations and to state legislators.

The main body of the publication reviews each education-related bill that was passed and identifies actions that might be taken by USBE, local school boards, and charter school governing boards to implement the requirements of the legislation. The publication also contains summary information on funding and bills not passed.

This publication is a service of USBE, but is not intended to convey any specific direction or assignments for action by local education agencies. The Utah State Board of Education will adopt administrative rules as necessary to implement new legislation. This publication is also not intended as a formal legal opinion or interpretation of legislative action.

Notes:

- Administrative funding for certain MSP categorical programs can be found in the "MSP Categorical Program Administration" line item in the State Board of Education's budget. Adding program and administration funding will provide the full-cost for the program.
- Includes one-time funding appropriated by the Legislature in FY 2020 or FY 2021, as follows:
 - FY 2020 - Teacher and Student Success Program (\$10,000,000), Voted & Board Local Levy Programs (\$20,900,000), Beverly Taylor Sorenson Arts Learning Program \$1,000,000, Early Graduation from Competency Based Education (\$55,700).
 - FY 2020 Supplemental - Transfer of \$12,000,000 from the Voted & Board Local Levy Program to the Grades 1-12 Program. Transfer of \$12,800,000 from nonlapsing balances in the Basic and Related to Basic School Programs to the Education Fund. Transfer of \$320,000 from the Student Health and Counseling Support Program to the MSP Categorical Program Administration Program. \$3,820,200 to support the Teacher Salary Supplement Program. \$4,680,900 to the Educator Salary Adjustment Program.
 - FY 2021 - \$30,000,000 for Student and School Safety distributed through the Flexible Allocation - WPU Distribution program. \$250,000 to the Charter School Administration Program to provide a minimum of \$45,000 for charters enrolling fewer than 450 students. \$800,000 to support H.B. 336, Concurrent Enrollment Certificate Pilot Program starting in FY 2022.
- Transferred a total of \$12.0 million one-time from the Voted & Board Local Levy Programs to the Basic School Program - Grades 1-12 in FY 2019 to provide the State Board of Education flexibility to maintain categorical program funding levels as authorized under 53F-2-205.
- Includes approximately \$4.3 million in funding for student transportation at the Utah Schools for the Deaf and the Blind.
- Local school districts levy a tax rate for their contribution to the Charter School Local Replacement program. The revenue generated from the tax is deposited into the Education Fund Restricted - Charter School Levy Account and appropriated to the program.
- Education Fund Restricted (EFR) accounts created by the Legislature funded from state fund "savings" generated through increased property tax revenues collected by various tax rates that are part of the Basic Levy. When local school districts pay more of the cost of WPUs from the property tax, less state revenue is required. This state revenue is transferred to the restricted funds to support other education programs.
- The Teacher and Student Success Program includes \$15.0 million appropriated in FY 2020 from the Education Fund. This program is funded from two sources, the Education Fund as mentioned, and the remaining funding from the EFR-Teacher and Student Success Account.

Proposal to Amend Utah Constitution Use of Tax Revenue

S.J.R. 9: Senator Daniel McCay & Representative Mike Schultz

AND

Public Education Funding Stabilization

H.B. 357: Senator Ann Millner & Representative Robert Spendlove

W
H
A
T

Allows the use of income tax revenue to support services for children and individuals with disabilities.

Protects public education (K-12) funding.

Adjusts education funding automatically for enrollment growth and inflation.

Reserves above-trend revenues to meet educational funding commitments during economic downturns.

W
H
Y

Educators are increasingly focused on the role that physical and mental health play in academic success.

Mechanism to constitutionally protect funding for K-12 public education despite allowing the income tax to be used for children and individuals with disabilities.

Income tax is historically unstable. Mechanism to stabilize education funding through economic downturns.

H
O
W

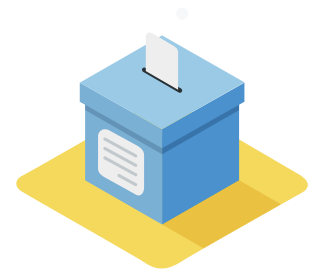

Expands the Constitutional earmark.

Moves current funding to a constitutionally protected account for K-12 education - approximately \$3.4 billion beginning in FY 2021.

Includes enrollment growth and the annual inflation for the Minimum School Program in the base budget.

Creates an ongoing public education budget stabilization account to meet future education needs.

Lets Utah Voters Decide

The proposal takes effect if Utahns approve it during the 2020 general election.

Principles adopted by the Board

The Board emphasizes the importance of policy that aligns with the following principles:

- Maintaining stability in funding for education
- Increasing strategic investment in education
- Accounting for variation in school districts' ability to raise local revenue
- Maintaining a constitutional guarantee for education funding

Enhanced Kindergarten Amendments

H.B. 99: Senator Lyle Hillyard
Representative V. Lowry Snow

W
H
A
T

Received **\$10 Million** ongoing to increase access to Optional Enhanced Kindergarten (OEK) for students.

Combined with the **\$7.5 million** ongoing currently appropriated for the enhanced kindergarten early intervention program, this funding will enable early intervention for about **25%** of students starting school unprepared for kindergarten.

W
H
Y

The **\$2.88 million** in TANF funds supporting the Kindergarten Supplemental Enrichment Program are *expiring* at the end of the 2019-2020 school year. This termination of funds affects programs in **46** schools across **17** LEAs.

Current nationwide and statewide data show better outcomes for students who are enrolled in full-day kindergarten.

Research demonstrates that students who attend quality early-childhood programs like kindergarten are more likely to go on to college, earn more, and save for retirement as adults.

H
O
W

Grants allow funding to flow through to LEAs down to schools where the student needs are highest. The funding is most often used for the salaries and benefits of kindergarten teachers.

The funding gives LEAs the ability to extend kindergarten instruction from a half-day of instruction up to a full day of instruction.

About **40%** of Utah students are coming to kindergarten at risk for academic failure; only half are being served through extended learning experiences.

Only **24%** of Utah children have access to state-funded OEK compared to **80%** nationally.

OEK Students

Data shows a higher percentage of Utah OEK students moved **up** one or more performance levels

40% of OEK students moved up in literacy compared to **16%** of students who did not have OEK

29% of OEK students moved up in numeracy from entry to exit compared to **11%** of students without OEK

Early Learning Training and Assessments

H.B. 114: Senator Ann Millner
Representative Steve Waldrip

W
H
A
T

To provide targeted professional learning and ongoing, job-embedded coaching to support pre-school through grade three teachers in their instructional practice and to improve student outcomes in literacy and mathematics.

To establish a science of reading assessment for teacher candidates to ensure basic foundational knowledge of teaching reading.

W
H
Y

Teachers matter more to student achievement than any other aspect of schooling. Many factors contribute to a student's academic performance, including individual characteristics, family, and neighborhood experiences. But research suggests that, among school-related factors, teachers matter most.

A teacher is estimated to have **two to three times** the impact of any other school factor.

Why not add these funds to the WPU?

Utah is prioritizing and aligning efforts in the early learning space. LEAs will have access to common resources and evidence-based strategies with support from USBE and a statewide network.

H
O
W

Through professional learning, followed up by job-embedded coaching or other supports, preschool through grade three teachers will advance their knowledge and skills in the science of reading and mathematics. LEAs will identify schools and grades that demonstrate a need for improved learning outcomes and provide targeted professional learning and follow-up to support teachers in advancing their students' learning.

About half of Utah students are not proficient in English Language Arts (ELA) and mathematics by third grade.

In 2010, \$77 million in professional learning funds were repealed at the state legislature, and had not been replaced.

2X

Kindergarten students in schools that fully implemented the professional learning and job-embedded coaching model experienced **2x** the number of students achieving typical or better growth than their school district peers and over **4x** the growth of their state peers.

School Leadership Development Amendments

S.B. 99: Senator Ann Millner
Representative Val Peterson

W
H
A
T

Builds upon State Board approved recommendations from a statewide working group and is aligned with the agency's strategic goal for Effective Educators and Leaders.

Creates a Transformational Principal development grant program.

Adds a School Leadership Specialist role to develop and execute a performance assessment and the Transformational Principal development grant program.

In most Utah LEAs, current school leaders lack access to robust professional learning and a network of colleagues to discuss problems of practice due to lack of resources.

Effective school leaders are important.

School leadership is second to teaching in school-related factors that positively impact student learning.

Principals strongly shape the conditions for high-quality teaching.

Principals are the prime factor in determining if teachers stay in high-needs schools.

The success of all school reform approaches depends on motivations and capacities of local leadership.

Effective school leaders can impact teachers and students.

Research across the decades has confirmed that **effective school leadership is associated with better outcomes for students and schools**. A high-quality school leader affects dozens of teachers and hundreds or thousands of students. Principals provide a pivotal role in our schools.

School leadership can be developed.

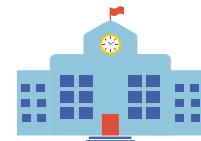

Recent research suggests that implementation of leadership standards, principal pre-service preparation, and principal on-the-job induction, mentoring, coaching, evaluation, and supports benefit students and schools, can be implemented in different ways, and are affordable.

In a 2018 survey of Utah school administrators

33% Were not offered an induction program

School Leadership Development

Continued

Utah is a diverse state. Our districts and charter schools have different needs and priorities around the development of school leadership. The school leadership grant program has been designed to support all districts and charter schools in their role as the key lever for influencing the quality of school leadership. Features of the grant program include:

H
O
W

School leadership development grants (\$4,800,000):

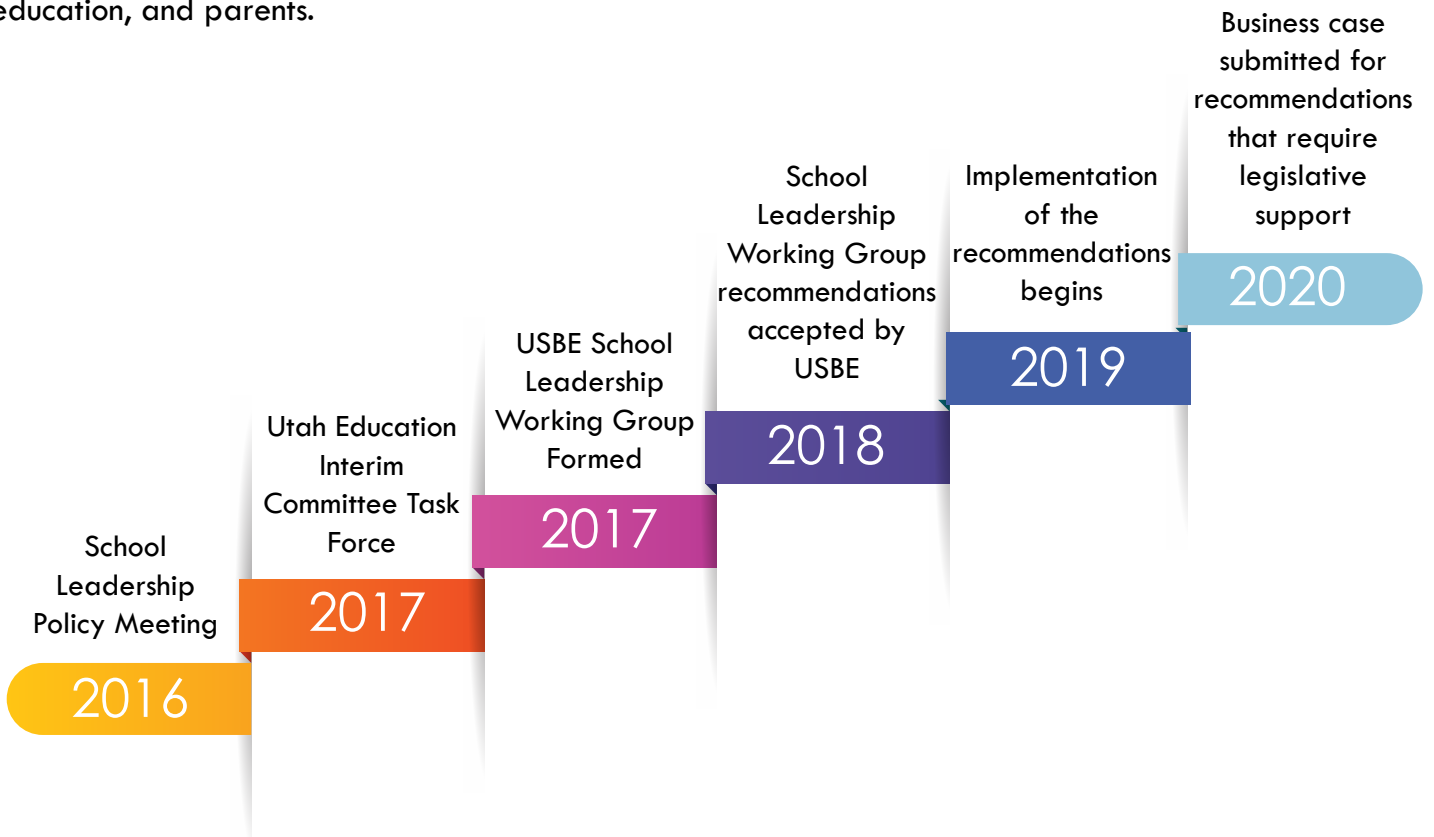

- Improve the principal pipeline for all schools
- Provide meaningful job-embedded experiences to school leader candidates
- Provide three years of high quality mentorship for every new school leader
- Support principal supervisors; ensure cycle of improvement for all school leaders

School leadership specialist (\$200,000):

- Will develop/execute a school leadership performance assessment, and the Transformational Principal development grant.

School Leadership Timeline

Multiple stakeholders have been involved in the development of this recommendation including, policy makers, school leaders, teachers, representatives from higher education, and parents.

2020 Notable Education Bills

The following are notable bills which passed during the 2020 General Session.

Thank You!

At the close of this year's general session we wanted to recognize the teamwork that made it so powerful for the students and educators in the state. It takes the work of many individuals to effectively follow, manage, and participate in a legislative session. We would first like to thank our incredible partners and fellow stakeholders for their tireless work on behalf of the education community at large. We truly relish the opportunity to work side by side with all of our partners throughout the session to ensure the legislation passed meets the needs of our students, teachers, and school leaders, and look forward to our continued partnership on behalf of public education in the state.

Next, we would like to thank our dedicated legislators and legislative staff. We appreciate the joint effort that our elected officials continually put forward in engaging all education stakeholders. We are truly grateful for the incredible team effort our legislative officials and their staff undertook in crafting new and better ways for education to be provided to each child in a meaningful and impactful way.

Lastly, we would like to thank the State Board members and staff. We could not have been successful in the legislative session without the leadership of our State Board members and the support the USBE staff provides. We appreciate the Board's continued leadership in seeking to provide safe school environments, more options for enhanced early learning, effective personalized education, and the systems to support effective, high-quality educators. We thank USBE staff for their continued support of this vision and the countless hours spent on behalf of the board and education community in making sure every bill and budgetary request was carefully considered and improved upon.

Thank you again to everyone who participated and helped make this session a great success. We look forward to the continued effort in improving educational access and quality for every student and educator statewide.

Sincerely,

The Superintendency
