Area of Study: Family and Consumer Sciences

Pathway: Fashion Design, Manufacturing and Merchandising

Get the Facts

Two-thirds of salaried fashion designers are employed in either New York or California.

Workforce Trends

Employers seek designers with a 2- or 4-year degree who are knowledgeable about textiles, fabrics, ornamentation, and fashion trends.

Employment growth for fashion designers will stem from a growing population demanding more clothing, footwear, and accessories. The best job opportunities will be in design firms that design mass market clothing sold in department stores and retail chain stores, such as apparel wholesale firms.

Pathway: Interior Design

Get the Facts
In 2008, approximately 71,700 people were employed in the interior design profession.

Workforce Trends
Interior design is a small occupation with a very small number of job openings each year. Nationwide, employment of interior designers is projected to increase 19 percent for all occupations through the year 2018. Economic expansion, growing homeowner wealth, and an increased interest in interior design will increase demand for designers.
