

JORDAN SCHOOL DISTRICT

We have really worked to ensure schools have steps of what they can do to ensure newcomers are settled into their school routine and give them [these forms](#) when they register. We got these from Granite School District as they transitioned their Tumaini program to be school based. With our growing numbers, we have also supported schools in having support staff go out to schools and train the Instructional coaches on how to support teachers.

Our team has been trained on the Check & Connect Program and will be utilizing those trainings to check in with students on the list. That program is through USBE and will be essential to how we connect schools, home visits, and our multicultural parent nights. These nights we have for families to learn about WIDA testing, Seal of Biliteracy, supporting their students and celebrating those who moved out of WIDA.
