

Fighting the Dragon

Richard Brown started off to kill the dragon, and the king	11
went back to his breakfast. Not one person bothered to watch.	22
Princess Rosalie was worried. She wondered if the young man	32
would be safe from harm.	37
The dragon could tell that Richard was coming, and it	47
sent clouds of smoke into the air. As Richard got closer the	59
dragon let fire out of its mouth. Then a few licks of fire came	73
out of its nose. As Richard got even closer the dragon began	85
to blow fire out of its ears. But Richard was not scared not in	99
the least.	101
