

APTT School Readiness for Implementation Criteria

School Name:

Date:

Principal Name:

The APTT model of family engagement is a high-impact and authentic approach to parent-teacher collaboration. Its research-based infrastructure is rooted in aligning curriculum, instruction, and assessment as it builds the capacity of educators, families, and the community to advance student achievement.

The following criteria are intended to help schools assess their level of readiness for APTT adoption and implementation. Please check the criteria that currently apply to your school.
