

**UTAH STATE BOARD OF EDUCATION
RESOLUTION NO. 2020-02**

**A Resolution Establishing the Official Position
of the Utah State Board of Education Regarding
School Trust Lands and Funds**

WHEREAS as a condition of Statehood, Utah accepted one-ninth of the land in the state in trust to support public schools and to compensate Utah for the vast amounts of federal land which Utah relinquished the right to tax; and

WHEREAS of the original land grant to support common schools, 3.26 million surface acres and 4.13 million mineral acres remain; and

WHEREAS these School Trust Lands are spread throughout the state, some of which are positioned in environmentally or culturally sensitive areas, particularly scenic areas, or areas with excellent recreation opportunities that are more suitable for preservation than development; and

WHEREAS the permanent State School Fund, comprised of trust revenue from management of the school trust lands, contains \$2.5 billion; and

WHEREAS the School Trust Lands and permanent State School Fund comprise the School Trust; and

WHEREAS the Utah Enabling Act and the Utah State Constitution require School Trust growth be used for the support of common schools in Utah;

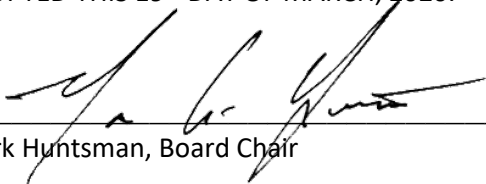

NOW, THEREFORE, BE IT RESOLVED that the Utah State Board of Education encourage the Utah State Legislature to protect the School Trust and the requirement that it be dedicated solely to K-12 public education; and

BE IT FURTHER RESOLVED that the Utah State Board of Education encourage state and local officials, the School and Institutional Trust Lands Board and Administration and the School and Institutional Trust Funds Board and Office to take all necessary steps to assure the School Trust is managed prudently and productively for the benefit of public education, consistent with standard trust principles, thereby obtaining much-needed revenue for Utah's public schools; and

BE IT FURTHER RESOLVED that the Utah State Board of Education continue to encourage federal and state officials to ensure the School Trust is held harmless and fairly compensated when School Trust Lands are captured, sold or traded; and

BE IT FURTHER RESOLVED that the Utah State Board of Education encourage the Utah State Legislature to support all distributions from the permanent State School Fund be locally administered to meet each school's critical academic needs and to enhance public education, not supplant current funding.

ADOPTED THIS 19th DAY OF MARCH, 2020.

Mark Huntsman, Board Chair
