

The WestEd Four Domains CALL System

“We made tremendous gains using the CALL survey. We will continue to use CALL to ensure our forward movement in the identified areas in need of improvement and do not slip backward in the identified areas of strength.”

Detailed Data Reports

Schools and districts receive detailed data related to each of the Four Domains of Rapid School Improvement.

About CALL > The Comprehensive Assessment of Leadership for Learning (CALL) is a school- and district-wide leadership assessment and feedback system designed to support professional growth, leadership development, and school improvement planning. Rather than focus on an individual school leader, CALL utilizes a multi-source comprehensive survey to assess core leadership practices that are distributed across an organization. Upon completion of the survey, users receive immediate targeted data and feedback. CALL was originally developed and validated through a federally funded research grant.

The CALL Team is working with WestEd to develop the Four Domains CALL System to measure leadership practices and deliver feedback relative to the Four Domains of Rapid School Improvement.
