Explanation of the Overall and Scale Percentages

The scores are based on a "percent of max" score. A percent of max score indicates the percentage of points the parent "awarded" to the school on certain items.

For example, a parent who rated the school a "4" (Strongly Agree) on each of the selected items, would receive a 100% score. This parent awarded the school the highest number of possible points. A parent who rated the school a "1" (Strongly Disagree) on each of the selected items would receive a 0% score. This parent rated the school the lowest number of points possible. A parent who rated the school a "3" (Agree) on each of the selected items would receive a 66% score. This parent awarded the school 66% of the total possible points. A parent who rated the school a "2" (Disagree) on each of the selected items would receive a 33% score.

Please note that there is more than one way of arriving at a particular score. For example, to get a 66% score, a parent might have circled response "3" (Agree) on each of the selected items. Or a parent could have rated the school a "4" (Strongly Agree) on half the items and a "2" (Disagree) on half the items – this also would result in a 66% score.

To determine the state's Overall Parent Involvement Score, the percentage of parents who had a percent of max score of 66% or above AND who did not have any "Strongly Disagree" ratings was calculated. This is based on all 12 items.

Interpretation example of a scale score: If the mean score for Equal Partners is 65%, that means that on average, 65% of parents responded "Yes" to the four Equal Partners questions.

Scales for the mean scores: Procedural Safeguards (Q8, Q9); Equal Partners (Q2, Q4, Q6, Q7); IEP Meetings (Q1, Q10, Q11, Q12); Communication (Q3, Q5).
