

College & Career Awareness

FY23 FUNDING APPLICATION

Program Year: July 1, 2022 to June 30, 2023

Availability of Funding: College and Career Awareness funds will be disbursed as part of the CTE Ongoing Allocation consistent with Utah State Board of Education Rule R277-916. LEAs will receive a base of \$2,000 or \$4,000 per school with the remaining funds distributed based on the school's prior College and Career Awareness enrollment. All allocations will be based upon the school meeting and continued compliance with the program standards.

Eligible Applicants: Utah School Districts and Charter Schools

Funding Procedures: College and Career Awareness Funding Application and Proposed Budget must be submitted and conform to submission deadlines. For an LEA to participate, it must identify schools and College and Career Awareness team members that: a) incorporate the entire approved College and Career Awareness program; b) are willing to participate in professional development for the program; and c) will assure compliance with all strands and standards related to the program.

Statement of Purpose: The CTE Ongoing Allocation includes funds for the junior high/middle school College and Career Awareness Core Curriculum program. This College and Career Awareness funding will be utilized to maintain state-of-the-art College and Career Awareness curriculum, purchase equipment and supplies, refine program curriculum, and provide ongoing professional development training for teachers, counselors, work-based learning coordinators and administrators. Funding may not be used for regular personnel costs under the State Board of Education Rule. Program evaluation and monitoring will be conducted to ensure appropriate implementation and continual update and renewal in the schools that receive funding.

Course Requirements: All parts of the program must be presented to qualify for funding.
