

FY22 – Postsecondary Performance Target Data Review (2021 Data Year)

An important facet of our Utah Perkins plans is to provide technical assistance and monitoring to school districts. Data reviews are an essential component to assist with data interpretation, data-driven decision making, development and implementation of improvement strategies, and action steps. In order show continuous improvement, please analyze your data, complete this form, and upload it into the Utah Grants system with the local application.

Core Indicator 1P1: Postsecondary Retention & Placement

Target:

Actual:

If target was unmet, how many years have you failed this target? Not Applicable for FY22
