

Mental Health Screening Program Training

H.B. 323 (2020) and R277-625
February 26, 2021

Introductions

Scott Eyre

**School Based Mental
Health Specialist,
DSAMH
saeyre@utah.gov**

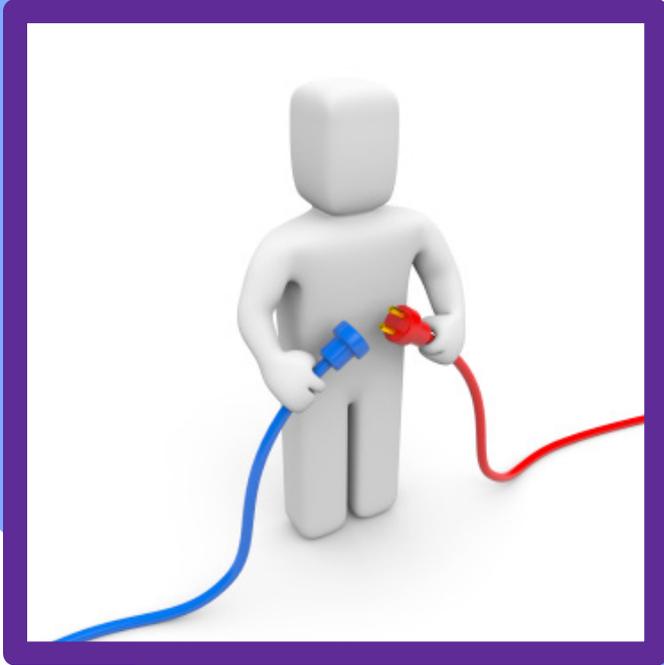

Tanya Albornoz

**Prevention Specialist,
USB
tanya.albornoz@
schools.utah.gov**

Michelle Knight

**Project AWARE Grant
Manager, USB
michelle.khodorkovsky
@schools.utah.gov**

Why?

Connecting Schools and Mental Health

For the benefit of students and
families

1 in 5

Children in the Utah have a mental, emotional, developmental, or behavioral issues
(ages 3-17)

Only 55%

Of children in need of treatment are able to access care from a mental health provider

\$9.5 million

Amount the State of Utah spent in suicide and mental health crisis services in FY20

> \$100 billion

U.S. costs of untreated mental illness

Background

H.B. 323 (2020)

- Standards for Mental Health Screening
- Directed USBE to establish Rule, training, and a process for approval
- Requires LEAs to obtain parental consent for screening
- Establishes the ability for USBE to distribute funds to LEAs in order to provide financial assistance to parents

R277-625

- Board approval required for mental health conditions that can be screened
- USBE will maintain a list of pre-approved mental health screeners
- Guidelines for approval of LEA mental health screening programs
- Data privacy considerations
- Requirements for parental financial assistance (optional)

The Data

School Safety Survey (2020)

Top 3
Risk Factors
INCREASED...

Top risk factors which increased due to COVID-19 are anxiety, stress, and social isolation (88%)

Administrators
expressed
CONCERNS...

Administrators expressed top concerns for student re-entry as academic delays and mental health concerns (68%)

Current Screening Practices Survey (2020)

69%
Conduct Screenings

The leading mental health conditions that are currently screened for include:

- Suicide Ideation (88%)
- Anxiety (58%)
- Depression (56%)

Mental Health 101

Pop Quiz

- 1) A term that includes our emotional, psychological, and social well-being affects how we think, feel, and act.
- 2) An umbrella term which including substance abuse, mental health, psychiatric, marriage and family counseling and addictions services

- A. Behavioral Health
- B. Well-being
- C. Physical Health
- D. Mental Health
- E. Phone a friend

Key Definitions

Screening vs Assessment vs Diagnosis:

- **Screening** is a process for evaluating the possible presence of a particular problem.
- **Assessment** is a process for defining the nature of a problem, determining a diagnosis, and developing specific recommendations for treatment of the problem or diagnosis.
- **Diagnosis** is the process of using assessment data to determine if the pattern of symptoms the individual presents with is consistent with the diagnostic criteria for a specific mental disorder set forth in an established classification system such as the DSM-5.

Key Definitions (cont.)

Mental Health Conditions for which an LEA may screen:

- **Anxiety** apprehensive uneasiness or nervousness; abnormal and overwhelming sense of apprehension and fear
- **Depression** a state of feeling unhappy; marked by inactivity, difficulty in thinking and concentration, a significant increase or decrease in appetite and time spent sleeping, feelings of dejection and hopelessness
- **Suicide Ideation** refers to thinking about, considering, or planning suicide

What is a Mental Health Screener?

Mental Health Screener is:

a systematic tool or process that is used:

- 1) to identify if a student is experiencing, or is at risk of experiencing, issues related to the student's mental health;
- 2) for an early identification strategy to detect the onset of mental health conditions, enabling the mental health conditions to be potentially addressed; and
- 3) that is not:
 - a) a diagnostic tool or process; or
 - b) a system or process used by a student's teacher to observe behavior for the purpose of targeted learning interventions.

Mental Health Screening Requirements

PARTICIPATION APPLICATION

Every year by May 1

PRE-APPROVED SCREENER

Link to the list on Safe and Healthy Schools Website

REQUEST FOR APPROVAL OF A SCREENER NOT ON THE LIST

ANNUAL TRAINING PROVIDED BY USBE AND DSAMH

ANNUAL DATA REPORTING REQUIREMENTS

COMPLY WITH DATA PRIVACY AND PARENTAL CONSENT REQUIREMENTS

Parental Consent Issues

- Parental consent needs to be obtained within 8 weeks prior to administering the mental health screener.
- Has to be a separate consent form, cannot be combined with other consent forms.
- Consent form must include:
 - Which board approved mental health conditions the screener measures.
 - Additional variables that might influence the screener results.
 - A statement that the screener is optional and not a diagnostic tool.
 - The parent has the right to seek outside resources and opinions.
 - A list of all data potentially collected by the screener.
- Parental consent must be obtained regardless of the age of the student.

Mental Health Screening Clarifications

- Universal screening = offered to all students
- What constitutes a Mental Health screener?
- Participation Application: Notification to USBE of LEA plans to use a pre-approved screener OR apply for a screener not on the approved list (Participation Application)
- Is it mental health screening? Screening vs assessment vs crisis intervention
- 504 and Special Education assessment / Psychoeducational testing excluded
- Contracting for services
- Supports for parents

--FAQ document is available on the USBE / Safe and Healthy Schools website

Mental Health Screening Grant

- Funding for a competitive grant program
- Total ongoing funding - \$500,000
- Funds can be used for two purposes:
 - costs associated with the screening program
 - to assist “qualifying parents” to pay for resources that cannot be provided by the school
- HB 323 (2020) and R277-625 provide further requirements
- Grant will be released again for the 2021-2022 school year
- More information available on the USBE, [Safe and Healthy Schools website](#)

Establishing a Framework:

Utah School Behavioral Health Toolkit: Partnering to Address Mental and Emotional Wellness for School-Aged Children

Coming Spring 2021

The Utah State Board of Education (USBE) and Department of Substance Abuse and Mental Health (DSAMH) are excited to announce the development of **Utah School Behavioral Health Toolkit: Partnering to Address Mental and Emotional Wellness for School-Aged Children**. This online toolkit will guide you through five stages of the **School-based Mental Health Framework** to integrate school and community mental health systems for school-aged children.

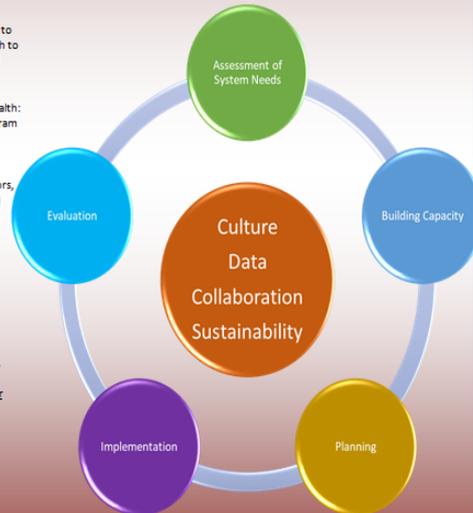

This toolkit is intended to support those who wish to advance school mental health, such as:

Community Mental Health:
Clinical Directors, Program Managers

School Personnel:
Student Service Directors,
Administrators, Mental Health Coordinators

SUBSTANCE ABUSE AND MENTAL HEALTH

- Assessment
- Capacity
- Planning
- Implementation
- Evaluation

Utah State Board of Education

Best Practices

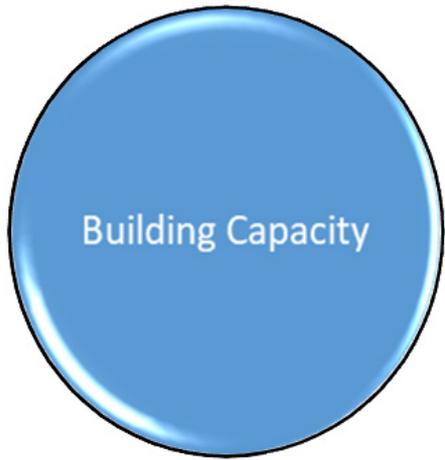

- **Resource mapping**
- **Beginning with the end in mind**
- **Clarify goals**
- **Data, measures of effectiveness**

Furthering Questions:

- What do we hope to accomplish?
- Where are our strengths?
- Where are our gaps?
- Who else might we learn from?

Best Practices

Building Capacity

- **Trainings & professional development**
- **Partnering, generating buy in and support**
- **Budget/funding**
- **Examine current practices**

Furthering Questions:

- What outside knowledge can we bring in?
- What is realistic?
- What (or who) else do we need to include to accomplish our goals?
- Are accommodations needed for special populations?

Best Practices

- **Logistics**
- **Nail down specifics**
- **Format and/or setting**
- **Referral Pathways**

It is **NOT** a best practice to begin any mental health screening without first establishing a clear plan for responding to any discovered needs.

Furthering Questions:

- Will we be able to do what we say we'll do?
- Who, what, how, when and why?
- Have we communicated our plan effectively?

Best Practices

- **Customer friendly, handle with care**
- **Adherence to the rules**
- **Assuring fidelity, oversight**
- **Listening to feedback**

Furthering Questions:

- What might this feel like for students/families?
- Do we have appropriate oversight?
- Are we in compliance?
- Are we flexible, able to adjust as needed?

Best Practices

- **Data analysis**
- **Lessons learned**
- **Making adjustments**
- **Reporting requirements**

Furthering Questions:

- What went well?
- What do we wish could go better?
- To whom (and how) will we share data?
- How can we apply knowledge gained?

Best Practices

Prevention Strategies

Effective prevention starts with *you*

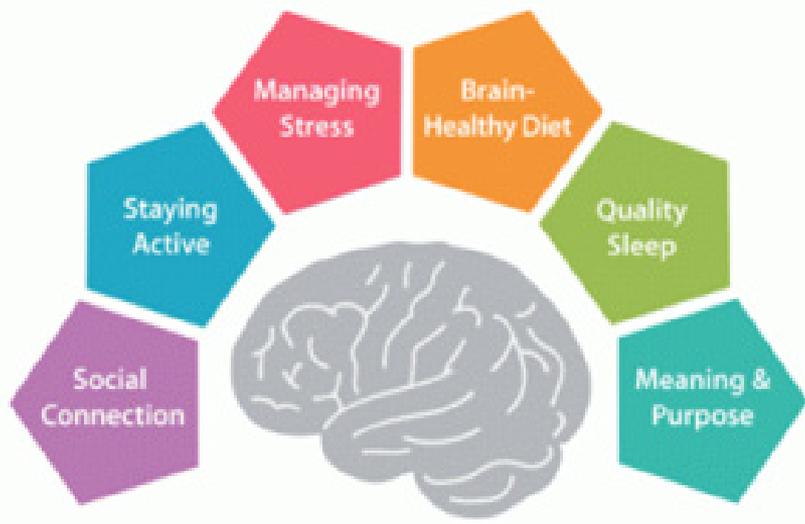

The Strategic Planning Approach

1. Describe the Problem and its Context
2. Choose Long-term Goals
3. Identify Key Risk and Protective Factors (Strengthening Families - Protective Factors Framework)
4. Select and/or Develop Interventions
5. Plan the Evaluation
6. Implement, Evaluate, and Improve

Approaching strength-based vs deficit-based thinking

BEST PRACTICES

Referral process:

- School counselors
- Social workers
- School psychologists
- Community partners such as local mental health authorities (LMHA)

Ask your kids:

- What do *you* think it means to have a mental health condition?
- Is there anything stressing you out that I can help with, *right now*?

90%

Breaking stigma means **talking** about mental health.

Stigma comes in 3 forms:
Public, Self, and Institutional

- ▽ Talk openly
- ▽ Educate yourself and others
- ▽ Be conscious of language
- ▽ Encourage equity
- ▽ Show compassion
- ▽ Be honest about treatment
- ▽ Choose empowerment over shame (strength-based vs. deficit-based thinking)

Activity

- One or more strengths of your screening program
- At least two areas needing improvement
