

Transportation, Distribution & Logistics

Transportation, Distribution
& Logistics
Utah Career and Technical Education
CAREER CLUSTERS

Transportation, Distribution & Logistics focuses on preparing students for employment in careers that relate to the planning, management, and movement of people, materials, and goods by road, pipeline, air, rail and water and related professional support services such as transportation infrastructure planning and management, logistics services, mobile equipment and facility maintenance.

CAREER PATHWAYS

- > Auto Mechanics & Repairs
- > Aviation
- > Diesel

Each CTE Career Pathway culminates in an industry recognized credential of value.

FACTS

- > The occupations of Automotive Service Technicians and Mechanics is projected to experience a high volume of annual job openings.¹
- > Job opportunities in the automotive industry are expected to be very good for persons with formal training, strong diagnostic and problem-solving skills, and knowledge of electronics and mathematics.¹
- > Employment of automotive service technicians and mechanics is projected to increase 6 percent nationwide through the year 2026.¹
- > Rising population and income will drive demand for airline travel and the need for commercial aviation workers. Those who have attended college for at least 2 years should have the best prospects.¹
- > In Utah, an aircraft mechanic, and aircraft service technician, and an aircraft pilot must be licensed.²

¹ Bureau of Labor Statistics, U.S. Department of Labor, *Occupational Outlook Handbook*

² Utah Department of Commerce, Division of Occupational and Professional Licensing

“The CTE courses at my high school were a huge part of my decision to become an automotive technician.”

Participation in and completion of a CTE Career Pathway will provide you with the academic knowledge and technical skills to successfully compete in a global economy. Learn about Career and Technical Education and the **Transportation, Distribution & Logistics Career Cluster** at UtahCTE.org.
