

A Community of People

What is a community? It is a group of people.	10
They live near one another. They work and play	19
near one another too. The place they live in can be	30
a city or a town. People work in a community.	40
They can help one another.	45
People have different jobs. There are teachers	52
and firefighters. Some people are police officers.	59
Some people are doctors. Some people deliver	66
mail. Some people work in stores.	72
Kids have jobs too. They go to school to	81
learn. What do you like about your community?	89
