

## Why SOEP?

SOEP offers students a wide variety of classes.

SOEP allows students to take classes that do not fit into their regular school schedule.

SOEP allows students online access of up to six (6) credits per school year. Students may take more credits if this better suits their academic plans. Students may take more credits than are typically allowed in a year with an Early Graduation Plan.

If students happen to miss part of a class due to illness or other problems, then they can take the quarter of the class that they need to make up.

## Classes that work with your schedule

The Statewide Online Education allows students that are not regularly enrolled in an Online School to take classes from accredited Online Providers.

Students do not qualify for services from the Provider for things such as sports, clubs, and graduation.

**Students need to sign up for classes 1 or 2 months before the term begins.**

Any Utah Student, grades 6 -12, are eligible.

Students grades 6-8, who may want to graduate early, can take high school courses through SOEP.

New!

Coming in January 2022: 7<sup>th</sup> and 8<sup>th</sup> grade classes!
