

Student Privacy: National Trends and Best Practices

Take a minute to discuss with your neighbor...

- What are you worried about regarding data privacy in Utah?
- What might data do for Utah that you are excited about?

Types of Risk

- ▶ An actual security or privacy risk
- ▶ Risk of not being in compliance
- ▶ Perception risk

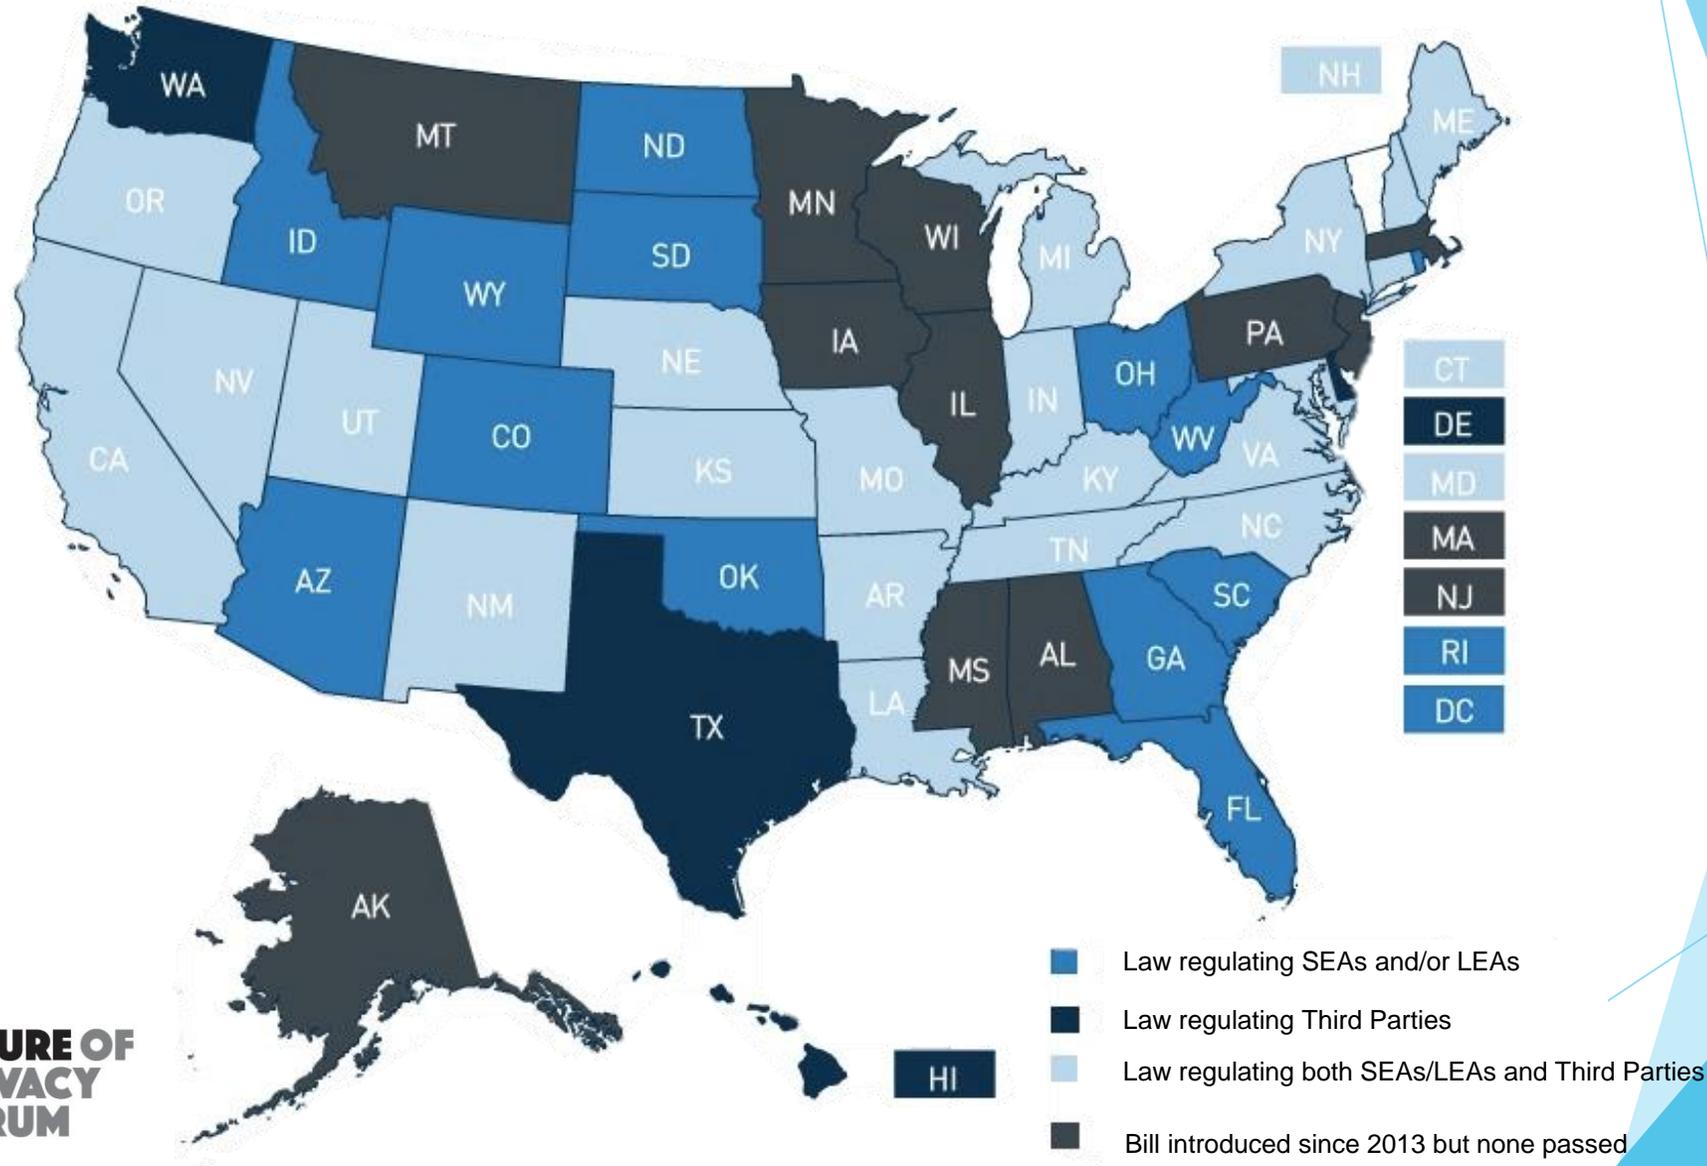

Credit: Jim Siegl, Fairfax County Public Schools, Virginia

Federal Laws and Actions

- ▶ FERPA
- ▶ There were several student data privacy bills introduced in Congress in 2015 and a FERPA re-write may pass in 2018. One bill has been re-introduced in 2017 so far.

40 States Have Passed 126 Laws Since 2013

State Laws Passed Since 2013

Leading Districts: Denver Public Schools

<https://academictechnologymenu.dpsk12.org/studentdataprivacy.aspx>

The screenshot shows the Denver Public Schools Academic Technology Menu. At the top left is the Denver Public Schools logo with the tagline "Discover a World of Opportunity™". To the right is a search bar with a "Search" button. Below the logo is a navigation bar with buttons for "Browse the Menu", "Search the Menu", "Submit a Tool for Evaluation", "Evaluation Process", and "Student Data Privacy Info". The main heading is "Student Data Privacy". Below this are three tabs: "REQUIRED VIDEO", "USING TECHNOLOGY & DATA", and "LEGAL". The "USING TECHNOLOGY & DATA" tab is active. The main content area contains a numbered list of instructions for using software that includes student data. On the right side, there are two sections: "Links" and "Forms". The "Links" section includes links for "FERPA-Approved App List", "Board Policy JRA/JRC Student Records/Release of Information on Students", and "Parental Consent template for using multiple tools [docx]". The "Forms" section includes links for "Parental Consent template for using multiple tools (Spanish) [docx]", "Parental Consent template for unsupported apps [pdf]", "Parental Consent template for unsupported apps [docx]", and "Translated versions of the Parental Consent form are available on the internal Multicultural Portal (DPS Login required)".

Academic Technology Menu

Browse the Menu Search the Menu Submit a Tool for Evaluation Evaluation Process Student Data Privacy Info

Student Data Privacy

REQUIRED VIDEO USING TECHNOLOGY & DATA LEGAL

1. Before you use any software that includes any student data, go and check the district Academic Technology Menu or the list of FERPA-approved apps. It's easy to search the district Academic Technology Menu and find the website, app, or software you plan to use.
2. When you find the tool you want to use, check its FERPA status. If it's listed as "approved" that means that student data can be shared with the company that runs the tool and you are clear to use it.
3. If the tool is listed as "Parent Consent Required", you'll need to get parent permission. If you don't find the website or app you are looking for on the menu, you'll also have to get parent consent.
 - Active parent consent means that the parent or guardian of every student would sign a permission form for their data to be in that website, app, or software.
 - These forms are found on the right side of this page.
4. You can send parent consent forms home for each online tool, or you can use the form that [lets you list multiple tools](#). You can do this classroom by classroom or for your whole school.
 - Forms are found on the right side of this page.
 - You have to do this each year for each tool.
 - You can send consent forms for one school year.
 - If you can't get consent, you can't put student data in the application.
 - Data can also be anonymized.
 - When you put names that wherever you are putting a student's name, you instead put in anonymous information. So instead of a student's first name, you would put "Blue" and instead of the last name, you would put "Bonnet" or "Bunny" or "Suede Shoes".
 - This could be unwieldy for you as a teacher to keep track of which student is "Blue Bonnet" and which is "Red Rover".

About Student Data Privacy

Using student data for district, school, and classroom improvement planning can be very helpful when it is used correctly and with the necessary security and privacy practices in place. Although data can be used to facilitate change and improvement, there is a need to balance the usefulness of this data with the privacy of the students who the data is about. Use the following links to become more familiar with Student Data Privacy.

Protecting Student Privacy While Using Online Educational Services: Model Terms of Service

About PTAC

The U.S. Department of Education established the Privacy Technical Assistance Center (PTAC) as a “one-stop” resource for education stakeholders to learn about data privacy, confidentiality, and security practices related to student-level longitudinal data systems and other uses of student data. PTAC provides timely information and updated guidance through a variety of resources, including training materials and opportunities to receive direct assistance with privacy, security, and confidentiality of student data systems. More PTAC information is available at <http://ptac.ed.gov>.

FUTURE OF PRIVACY FORUM

For comments and suggestions for future technical assistance resources relating to this document and suggestions for future technical assistance resources relating to this document, comments and suggestions can be sent to PrivacyTA@ed.gov.

Guidance

In February 2014, PTAC issued guidance titled [Protecting Student Privacy While Using Online Educational Services: Requirements and Best Practices](#). This *Model Terms of Service* document is intended to further assist

Protecting PII for School Districts

Protecting Personally Identifiable Information (PII)

When you possess an individual's personal information, it is your responsibility to protect the individual's privacy. Ethically, employees are obligated to be vigilant about protecting other individuals' personally identifiable information so they will not create any undue harm to the individual or to the organization. **Treat others' personally identifiable information (PII) as if it is your own.**

This training should take about 10-15 minutes to complete.

Ask Before You App

Video Tool: Keeping an Eye on Privacy

Integrating educational apps and tools safely, responsibly, and effectively can be a challenge. This short video provides guidelines for today's education professionals. It is a handy reference for classroom teachers and as a training tool for professional development.

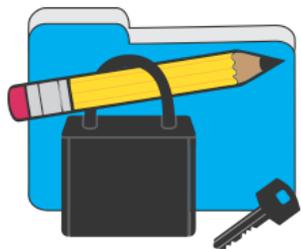

Educator's Guide to Student Privacy

https://ferpasherpa.org/wp-content/uploads/2016/05/EduGuide_DataPrivacy_516.pdf

Educator's Guide to Student Privacy

Technology tools and apps are making it possible for educators and students to collaborate, create, and share ideas more easily than ever. When schools use technology, students' data—including some personal information—is collected both by educators and often the companies that provide apps and online services. Educators use some of this data to inform their instructional practice and get to know their students better. It is just as essential for educators to protect their students as it is to help them learn.

This guide is meant to help teachers utilize technology in the classroom while protecting their students' privacy.

Why should classroom teachers care about student data privacy?

This project is brought to you by:

Privacy Courses for Teachers

<http://ikeepSAFE.org/privacyeducation>

The screenshot shows the iKeepSafe website with a dark green header. The top left features the iKeepSafe logo and a navigation menu with categories: PRIVACY, BEaPRO™, PARENTS, EDUCATORS, COMMUNITIES, YOUTH, PREVENT & DETECT, ABOUT US, PARTNERSHIPS, and VIDEOS. A 'SUPPORT US' button is located below the menu. The main content area has a green header with 'Generation Safe | BLOG | [social icons]' and 'SUBSCRIBE IN A READER | SHARE | [share icon]'. The main title is 'IKEEPSAFE PRIVACY COURSES FOR K12 TEACHERS AND ADMINISTRATORS'. Below the title is a sub-header 'Protecting Student Privacy and Advancing Learning' followed by a paragraph: 'Student data privacy concerns can create hurdles to expanding access to edtech and digital innovations. Addressing those concerns, and helping parents and others understand how student personal information is used – and protected – is essential. K12 educators have a unique role in managing edtech, student data, and privacy, and in building parent confidence in digital learning.' This is followed by a list of three objectives: 1. Communicate the importance of balancing innovations in learning with privacy and security responsibilities. 2. Explain the importance of teaching all students and staff about student data privacy and security. 3. Describe why everything and everyone who connects to the school network must comply with privacy and security requirements. Below this is a paragraph: 'As an educator and an edtech leader, you probably know some of this information already. These materials are designed to help you talk with...' followed by a partially visible sentence: '...s about edtech and students' personal information – and to help ...gues address issues they may face when expanding technology in ...assrooms.' To the right of the text is a video player with the title 'Privacy Overview for K12...'. Below the video is a section titled 'Find iKeepSafe Privacy Approved Products'. At the bottom right is a blue box with a padlock icon and the text 'TOP 10 STUDENT PRIVACY TIPS FOR EDUCATORS'. The footer of the page includes social media icons for Twitter, Facebook, and LinkedIn, and the text 'iKeepSafe | keepSAFE.org'.

There Can Be No Privacy Without Security: Emerging Lessons from the K-12 Cyber Incident Map

JUNE 6, 2017

As K-12 schools grow increasingly reliant on digital tools and services for teaching, learning, and other core services, they can maintain and build trust with their local communities by ensuring sensible privacy protections for students, educators, and other school staff. While this is fundamentally hard and important work, it also is insufficient if reasonable school [...]
