

The Dragon in the Valley

Long ago and far away, in a valley of great beauty,	11
there lived a terrible dragon- a dragon so terrible that fire	22
came out of its mouth and its nose. Fire even came out of its	36
ears.	37
From the top of the mountain it was easy to spot the	49
place where the dragon lived. Thick, black smoke curled out	59
of the cave and hung like a dark cloud over the valley.	71
The king would wake up early and look out the castle	82
window. He always felt very sad when he saw the black	93
cloud of smoke.	96
Princess Rosalie would also wake up early. When she	105
saw the smoke, she was even sadder than her father.	115
